### About me:

I'm a cybersecurity specialist who has worked with NGOs, businesses, and educational establishments in Eastern Europe and Central Asia. I have created Information security management systems (ISMS) for over 20 organizations, trained over 1,000 people, and consulted over 3,000.

### My experience:

#### Information security consultant/manager

[Tbilisi Shelter City](#), NGO, Georgia, Remote (04/21 - current) **3 years**

I have worked for Tbilisi Shelter City, their partners, and beneficiaries:

- Provide individual consultation in the cybersecurity field
- Improve the information security level of organizations
- Training teams of organizations
- Creation and implementation of ISMS
- Access Control
- Internal information security audit (ISO 27001, SAFETAG)
- Risk Assessment
- Vulnerabilities identification and management
- Endpoint protection (Bitdefender Gravity Zone)
- System administration (Linux, Windows, Mac, Android, iOS)
- Network administration (Access control, security, DNS, DHCP, TCP/IP)
- Office 365 administration
- Google Workspace administration
- Management of small cybersecurity projects

#### Head of digital security helpline operator's team

Digital Security Helpline [Nadiyno](#), Remote(10/22 - current) **1,5 years**

- Provide consultation to customers.
- Manage the operator's team (6 people)
- Hiring/Firing/Evaluation of the operators
- Training and mentoring team members
- Reporting to the Team Lead (operators' KPI, cases on the line)

#### Selected international and Ukrainian experience in training and consultation:

- Risk assessment and cybersecurity management - Media Policy Institute, Open Society Foundation (KG)
