Recommendation letter for vlada.agency

The CanSchool brand team, and in particular Inna Kogan, is grateful to the team of the creative agency vlada.agency for the long and effective cooperation. For 3 years of working together, we were able to achieve high results in terms of recognition and filling of the client base. The vlada.agency team headed by Roman Vladyslava developed brand strategy, visual identity, advertising campaigns and SMM for CanSchool. The work has always been and is done on time and was creative, done professionally and uniquely. We are satisfied with many years of cooperation and can recommend the vlada.agency team for any kind of SMM, design, branding, advertising and animation work.
